The slight flurry in the stock market occasched by the nomination of the Republican adidate at Chicago came to an end to-day and the market resumed its wonted stagnant and tareless appearance by the end of the first A little further progress was made in the ward movement, but this was soon used and prices were maintained at the e dead level almost throughout the entire There was no news of a character to affect raises in any way: the fluctuations in all second a few of the leading atocks were someoned within a range of less than ser cent. These was some pressure at the pening, and first prices were made at conscious extending to † per cent: But while Leadon, Chienge and other outside interests had few selling orders the principal traders became agrees at the lewer range of values and no further decline was recorded after the first half e desilne was recorded after the first half our. Other than this, however, there was an ing content to let prices take their course. oney was easy at 12 per cent., all the way out, id renewals were made at flat to a small premm. The only stock which showed any sakness was Rock Island, but the dealings in were extremely limited, and the other which bore the brunt of the presure.

grangers, which bere the brunt of the presure, were comparatively firm after the early declines were shocked. There was more animation in the market, at the opening, than has been seen at that time on any day during the past two weeks, but it all disappeared when the pressure removed. Lackawanna, Union Pacific and lake fibere displayed most strength, and all show slight advances at the close. There was a firmer feeling toward the close on the covering of "shorts," but the market was devoid of feature and finally closed very dull but steady to firm at close to the opening figures. Final changes are fer fractional amounts only, except in the case of Rock Island, which shows a loss of 15 per cent., and they are about equally divided between gains and losses.

The railroad bond market also relapsed into Anliness. The movements in the list were infiguificant except in the Mobile & Ohio general officant except in the Mobile & Ohio general ours, which rose from 41 last evening, to 43, the firm tone overspread the market and final trees are generally fractionally higher than a previous sales.

CHICAGO, June 26. - The opening on Change to-day was marked by better activity and a firmer tone for cereals than has prevailed for some time. July wheat took a sport up to 8140, shortly after the opening, an advance over the close last night of lie; August advanced is over last night, and this made July is premium. Prices lost about half the early advance before Corn was remarkably firm also, and July touched 49 cents early, reacted to 48tc. and egain sold above 48tc. Provisions opened slightly higher all around, but weakened before moon. The turn appears to have been made in wheat, and the market had a firm tone to day, without any special "buil" influences be-youd those of a local nature. The market here received an unusual

Cherling exchange was dull but steady at \$4.879 | Doise of July, and the discovery that the starty-day bills and \$6.886 for demand. ties. While the futures all advanced about le over last night's close, yet the facts referred to sent July up lie over last night, and put it at ic premium over August. Receipts were 44 cars, with but 25 cars expected for Wednesday. The range of prices until near the close of the regu-lar session was as follows: July opened at 80c, sold up to 81 jc, back to 80 jc, rallied to 80 jc, feil back to 80 jc again, and became steady at about 80 jc; August also started at 80c, sold up to 80 jc, back to 80c, and again to 80 jc. December

opened at 82je, and sold between 82je and 83je. The closing price for July was 80je. It was a good day in corn. Prices, on the whole, advanced about the same as in wheat, without the help of any special buying in July. Prices were a shade higher on the opening, at 48% for July and 49% for August. The close yesterday was on a bulge of big charters and other influences, and a little reaction would not have looked strange. Instead, there was an advance right from the start; July went up to 49c on pretty good buying; August went to 49c. Then came a reaction of ic, followed by a second bulge after the estimate of 196 care for Wednesday was made known. On this July went still higher and touched 49je, closing at 48je; August touched 50je, closing at 49je. There was only a moderate speculative trade in oats, but the market was strong and advanced a little for the nearer months. There was no special feature and the strength seemed to be due to sympathy with the other grain markets. July oats opened at 31%c, sold at 30%c up to and sing at 314c. Previsions more than ordinary attention. Not much increase was noticeable in the outside trading. yet more general interest was manifested, and between these and the professionals transactions
reached a rather fair aggregate. Product was
also quite strong, and at the opening prices were
higher, being influenced by a moderate run of
hogs. Later, however, the movement followed
an easier turn, and in lard and pork the morning
improvement was more than lost. July pork
closed at \$13.67‡. Lard, July, at 8.22‡c, and
July short ribs at 7.52±c. The leading futures July short ribs at 7.52je. The leading futures ranged as follows:

INDIANAPOLIS MARKETS. Trade Offish-Pol ties in the Lead.

INDIANAPOLIS, June 26.

In the fore part of the day a fair trade was in progress, a number of country merchants being in and mail orders were quite satisfactory for June. But in the afternoon politics took full sway, wholesale and retail merchants alike practically suspended business for the remainder of the day. In prices there were but few changes; in fact none of importance. Reports from the East regarding the coffee market show a weak tone, while sugars, to the contrary, seem to be gathering strength, and an advance any day would not be a surp rise, so great is the demand. The provision market rules quiet at unchanged prices. The produce markets continue quite active. Receipts of eggs are small, and prices have again taken on a firm tone. The same is true of poultry, especially young chickens. Good butter meets with ready sale. Vegetables are more plenty; prices downward in tendency. Receipts of berries are only fair, and orices are well maintained. Cabbages, onions, in fact all vegetables, arriving liberally and prices weakening. Other markets present no new

A very quiet market covers the local situation.
